

7300 Series

Quarter-turn Plug Valves

The Hoke 7300 Series Plug Valve provides full flow or leak-tight shut off with just a quarter turn. The 7300 is recommended for use in applications where instant on-off and visual flow indication is essential. Its safe, reliable top-loaded design allows throttling of fluids and thru-port rodding of the valve. The simple design provides easy maintenance and extends valve life.

Applications

- Low pressure air lines
- Test benches
- Chromatographs
- Control panels
- Instrument lines for on/off service
- Isolation valves
- Sampling lines
- Pilot plant instrumentation

Technical Data

MAXIMUM UNIDIRECTIONAL OPERATING PRESSURE	3,000 psig (20.7 MPa) 200 psig with vent
MAXIMUM REVERSE OPERATING PRESSURE	1,000 psig (6.9 MPa)
MAXIMUM OPERATING TEMPERATURE RANGE	-20° to 400° F (-29° C to 205° C) with fluoroelastomer seals
ORIFICE SIZES	0.093 to 0.187 (2 to 5mm)
Cv (MAXIMUM)	0.74

Benefits

Safety

- Dual retaining rings prevent accidental plug removal when the handle is not in place

Full flow

- Straight through orifice

Ease of maintenance

- Straight through bore allows rodding through body

Visual indication of flow

- Handle shape indicates flow direction

Quick actuation

- 90° on/off-instant control

Multifunctional

- Throttling capabilities

Safety handle

- Oval trip-proof handle prevents inadvertent actuation

Ease of repair

- Plug and o-ring are easily replaced

Reliable

- All valves are factory tested

Ease of operation

- Low operating torque

Easy installation

- Available with Gyrolok® flareless tube fittings

plug valves

---	--

Down Stream Vent

Down stream vent allows down stream pressure to be relieved to atmosphere through a small hole in the body. To order, select '7' under Body Options.

Repair Kits

- SP7300K1 includes the fluoroelastomer o-rings, retainer, retaining rings, and PTFE back-up rings.
- SP 300K2 includes the brass plug.
- SP7300K3 includes the 316 stainless steel plug.

Locking Kit

7300K2

Colored Handles

Colored handles provide a visual identification of valves used in various applications. Refer to the chart below for ordering information:

PART NUMBER	HANDLE COLOR
96159-030	Red
96159-031	Blue
96159-033	Green

For Your Safety

It is solely the responsibility of the system designer and user to select products suitable for their specific application requirements and to ensure proper installation, operation, and maintenance of these products. Material compatibility, product ratings and application details should be considered in the selection. Improper selection or use of products described herein can cause personal injury or property damage.
